EDUCATION

Olin Business School, Washington University (WashU Olin), St. Louis, MO, USA 08/2023 - 12/2024
M.S. in Business Analytics (Financial Technology) **GPA: 3.96/4.00 (ranked 1st)**
Honors: Beta Gamma Sigma, Outstanding Student Award, Charles F. Knight Scholar
PhD Coursework: Corporate Finance Theory (A, ranked 1/5), Asset Pricing (A), Microeconomic Theory (A)

Central University of Finance and Economics (CUFE), Beijing, China 08/2019 - 06/2023
B.S. in International Economics & Financial Risk Management **GPA: 90.25/100**
Senior Thesis: Effects of Development Initiatives on Foreign Direct Investments

RESEARCH EXPERIENCE

Economics of Credit Products

Research Assistant for Armando Gomes (WashU Olin) Since 01/2025

- Designed and implemented a dynamic-programming model of credit and durable-goods choice, building a framework to handle mixed discrete-continuous optimization with just-in-time compilation.
- Refined and expanded the solution method through multiple generations of iteration and convergence designs, improving stability, efficiency, and scalability across model specifications and parameter ranges.
- Applied the finalized framework to analyze how a randomized-shock financial product alters household saving and durable-purchase behavior, quantifying its welfare and distributional implications.

Empirical Mergers & Acquisitions Dynamics

Research Assistant for Brett Green (WashU Olin) Since 01/2025

- Automated M&A deal-bidder-offer characteristic collection from SEC proxy statements as part of a project studying bid-term implied valuation discounts, creating a reproducible pipeline that replaces manual data collection.
- Developed a modular local LLM pipeline with lightweight LoRA adapters that improves efficiency and reliability through paragraph-level traceability, addressing common LLM issues including hallucination and context loss, and incorporating a review mode for transparent validation.
- Designed an adaptable system that process new filings efficiently and allow seamless addition of future features, supporting long-term research scalability with minimal human input.

Empirical Corporate Finance

Research Assistant for Margarita Tsoutsoura (WashU Olin) Since 05/2024

- Built research datasets spanning firm-level structures, individual trajectories, and country-level macro indicators, demonstrating capacity to construct and harmonize data across multiple layers of empirical analysis.
- Engineered scalable systems for data acquisition, matching, and validation from registries, financial filings, and web-based sources, ensuring precision, transparency, and replicability.
- Developed hybrid matching and classification pipelines using regex, fuzzy logic, and LLM models, resolving complex naming ambiguity and creating consistent cross-dataset identifiers.
- Created original empirical measures—including industry skill intensity, family-office mapping, and firm subsidy exposure—providing new inputs for ongoing studies in corporate governance and firm behavior.
- Delivered fully verified datasets forming the empirical foundation for causal analyses and future research projects.

Distinguishing LLM Authorship Through Linguistic Dimensions

Research Assistant for Gerald Onwujekwe (WashU Olin) 01/2024 - 11/2024

- Investigated computational linguistic dimensions to differentiate LLM/human authorship.

International Institute of Green Finance, CUFE

Research Analyst 02/2022 - 06/2022

- Evaluated the effectiveness and mechanism of China's national carbon market in reducing CO₂ emissions.
- Assessed ESG challenges in diamond production and recommended sustainable practices.

TEACHING EXPERIENCE

Teaching Assistant, WashU Olin

- Advanced Financial Management (Undergraduate, for Margarita Tsoutsoura) Spring 2025
- Advanced Corporate Finance I - Valuation (Graduate, for Yaron Leitner) Spring 2025
- A/B Testing (Undergraduate & Graduate, for Xiang Hui) Spring 2025
- Advanced Corporate Finance II - Financing (Graduate, for Yaron Leitner) Fall 2024
- Financial Markets (Graduate, for Yaron Leitner) Fall 2024
- Machine Learning (Graduate, for Durai Sundaramoorthi & Gerald Onwujekwe) Spring/Fall 2024
- Capital Market and Financial Management (Undergraduate, for Koray Sayili) Spring 2024

PROFESSIONAL EXPERIENCE

China International Capital Corporation (CICC)

FICC Product Specialist 03/2023 - 06/2023

- Investment Research on CLO, ABS, & REIT: fundamental analysis, structuring, market analysis.

Capital Markets Intern

06/2022 - 12/2022

- Underwriting Support on Equity/Debt/Convertibles: risk modeling and assurance, market analysis.

China Merchants Securities

Investment Banking Intern

02/2022 – 06/2022

- Securitization Support: due diligence, quantitative modeling & analysis.

Ernst & Young (EY)

Wealth & Asset Management Consulting Assistant

12/2021 – 01/2022

- Conducted research on digital transformation for asset-management clients.

OTHER EXPERIENCE

- Entrepreneurship: Co-Founded “Yousee” Secondary Ticketing WebApp
- Volunteering: VP of Planning, CUFE Red Cross Society
- Interdisciplinary Contest in Modeling (ICM) – Honorable Mentions (2021)

SKILLS

- **Programming Proficiency:** Python, R, Stata, MATLAB, SQL, SAS, AWS, Hive, $\text{\LaTeX}$, WebDev
- **Languages:** Mandarin (native), English (TOEFL 117/120, GRE 165V / 170Q / 5W), French (conversational)
